

## The Complete Server & Network Device Monitoring System

MonitorIT<sup>®</sup> is a comprehensive server and network monitoring system software package that provides everything you need to begin monitoring the availability, performance, and operation of Windows & Linux/Unix servers and workstations as well as SNMP and SYSLOG based servers, routers, switches, hubs, printers, UPS and other network infrastructure devices.

MonitorIT pricing is based on the total number of servers, workstations, and/or devices, at unique IP addresses, being monitored. Determine your total count of servers, workstations, and/or devices you want to monitor and find your quantity price point in the list below.

“Agentless” server/workstation licenses for monitoring and reporting User Logon/Logoff activity are priced separately based on the number of these licenses required. At least 1 Agent license is a prerequisite.

A license includes 90-days support and all updates, and is valid for as long as you use MonitorIT. Support/Maintenance can be extended to one full year by purchasing the Annual Support/Maintenance Option. All prices are quoted in US dollars.

<u>License Quantity</u>	<u>Price</u>	<u>Part Number</u>
<b>1-99</b> total monitoring licenses	<b>\$99</b> per server license <b>\$64</b> per workstation license <b>\$29</b> per device license	MSrv-4-005099
<b>100-249</b> total monitoring licenses	<b>\$84</b> per server license <b>\$54</b> per workstation license <b>\$24</b> per device license	MSrv-5-100249
<b>250-499</b> total monitoring licenses	<b>\$69</b> per server license <b>\$44</b> per workstation license <b>\$19</b> per device license	MSrv-6-250499
<b>500-999</b> total monitoring licenses	<b>\$54</b> per server license <b>\$34</b> per workstation license <b>\$17</b> per device license	MSrv-7-500999
<b>&gt; 1000</b> total monitoring licenses	<b>Call</b>	MSrv-Site
<b>Optional Add-on “Agentless” Server/ Workstation Licenses</b>		MSrv-Agentless
<b>1-10 Included at No Charge with every MonitorIT Server</b>
